# This is a test for in-class purpose. It

### R Markdown

Inline calculation: 1255

When you click the  $\mathbf{Knit}$  button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

#### summary(cars)

```
##
        speed
                        dist
   Min.
          : 4.0
                   Min.
                           : 2.00
##
    1st Qu.:12.0
                   1st Qu.: 26.00
##
    Median:15.0
                   Median : 36.00
##
           :15.4
                           : 42.98
   Mean
                   Mean
    3rd Qu.:19.0
                   3rd Qu.: 56.00
           :25.0
                           :120.00
## Max.
                   Max.
```

# **Including Plots**

You can also embed plots, for example:

Note that the  $\mbox{echo}$  = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.
